The Engineering Department administers the city's paving program every year. Determination of which roads will be paved is based on many factors including traffic volumes, pavement conditions, age, citizen requests, staff recommendations and budget appropriations. We welcome your requests and input. If you want to request a street be paved, please contact the Engineering Department at 606-327-2008 or email Bill Halterman at [bhalterman@ashlandky.org](mailto:bhalterman@ashlandky.org) with your request.

All paving requests are recorded and evaluated by the factors listed above. Although we cannot guarantee that any specific street will be paved upon request, we will review every request, not just for the upcoming paving season but potentially for a paving season soon to come.
