ITEMS FOR CONSIDERATION:

A. Bids for electrician services – 4th Avenue underground wiring conversion project. Chestnut reported that the request for proposals for electrician services for meter base conversions was sent to eleven local electricians and the Chamber of Commerce and was posted on the City’s website. The bid opening was scheduled for January 17, 2017, and only one bid was received: Kingston Electric in the amount of $94,700. Santee Cooper has reviewed the bid and found it to be acceptable. Chestnut also gave a brief progress report on the project. Venture Engineering hopes to put the project out to bid according to the previously discussed timeline (mid-March to mid-April), even though permitting is expected to stretch out for 3-6 months. Motion: White made a motion, seconded by Goldfinch, to approve the bid submitted by Kingston Electric in the amount of $94,700. Vote: Unanimous. Motion carried.

B. Bids for sidewalk repairs and improvements. Chestnut reported that the contract for sidewalk repairs and improvements expired on December 31, 2016. The bid opening was held on January 25, 2017, and two bids were received: Palmetto Corp and King Construction. Chestnut advised Council that, based on his analysis, it was recommended that Council approve a contract with King Construction for sidewalk repairs and improvements for the period of February 1, 2017, to January 31, 2019, based on bid unit prices. Motion: White made a motion, seconded by Smith, to approve staff’s recommendation. Vote: Unanimous. Motion carried.

C. Bids for repair of West Ridge sewer lift stations and extenuation of sewer force main. Bell informed Council that funds were allocated in the FY 2015-16 budget for upgrades to the West Ridge and Maple lift stations but these projects were not completed and, due to an oversight, the funds were not carried over into the FY 2016-17 budget. Because of the critical need for improvements to these two lift stations, the Public Utility Department requested bids from contractors on upgrades to both lift stations and the relocation of the Brown Street force main to a deeper manhole farther down the
street. All three projects were bundled into one RFP with the hopes of getting lower bids. The bid opening was held on January 17, 2017, and the following companies submitted bids: AAA Utility and Construction, A.C. Schultes, Lawrimore Construction, Level Utilities, and North American Construction. Based on need and the current budget allocation, staff recommended that Council accept the low bid in the amount of $305,000, submitted by Lawrimore Construction, for the West Ridge lift station improvements and relocation of the Brown Street force main and to delay the Maple lift station upgrades which will be budgeted in FY2017-18. The allocation in the FY 2016-17 budget for the Homewood lift station ($240,000) will be used to fund the West Ridge project. The amount over-budget and the entire cost of relocating the Brown Street force main will be covered with other funds allocated for water line upgrades. **Motion:** Goldfinch made a motion, seconded by Anderson, to approve staff’s recommendation. **Vote:** Unanimous. Motion carried.

**D. Bid for improvements and additions.** Senn reported that requests for proposals were prepared for the enclosure of two existing open bays and the addition of three open bays for the Grounds and Maintenance Department, and the addition of a 25' x 139' open shed to the Vehicle Maintenance building at the Public Works Complex. The sole bid received was from Homewood Metal Works in the amount of $118,932 for the Grounds and Maintenance Department bay enclosure/addition, which is under budget, and $54,607 for the shed addition at the Vehicle Maintenance Department. Senn noted the amount in the FY 2016-17 budget for the Vehicle Maintenance shed is $50,000 but the shortfall can be covered by the overall budget for that department. Staff recommended acceptance of the sole bid submitted by Homewood Metal Works. **Motion:** Alford made a motion, seconded by Timbes, to accept the bid in the amount of $118,932 submitted by Homewood Metal Works for these improvements and additions. **Vote:** Unanimous. Motion carried.

**E. Proposed installation of 4-way stop at intersection of Whittemore and Singleton Streets.** Captain Carter reported that, based on findings resulting from community complaints, staff recommended the installation of a 4-way stop at the intersection of Whittemore and Singleton Streets. It is expected that the 4-way stop will reduce speed and the amount of cut-through traffic on these streets. Flags and temporary signage will be installed to advise the public of the new stop signs for 45 days and stop bars will be installed. **Motion:** Timbes made a motion, seconded by Goldfinch, to approve staff’s recommendation. **Vote:** Unanimous. Motion carried.

The CCU School of Recreation & Sports Management has received a Professional Enhancement Grant from CCU in the amount of $5,500 for a portion of this project. The City of Conway will be responsible for paying an additional Project Team fee of $2,000, which would cover faculty time, graduate student assistance, travel time and cost of materials for data collection and
reporting. Since this project will take several months to complete, funds to cover this fee will be requested in the FY 2017-18 budget. Staff recommended approval of the agreement. **Motion:** Timbes made a motion, seconded by Anderson, to approve staff’s recommendation and authorize the expenditure of $2,000 to cover the additional portion of the cost. **Vote:** Unanimous. Motion carried.

**H. Grant requests from Conway attendance area schools.** An allocation of $3,000 for grants to the Conway area schools was included in the FY 2016-17 budget. In November 2016, staff mailed information to Conway area schools offering this grant opportunity provided by the City. Williams noted that only two schools responded. **CITY ADMINISTRATOR’S REPORT:** Graham noted that staff had researched options for improving visual displays in Council Chambers and called on Emrick to review staff’s recommendation. Emrick displayed a mock version of a 70 inch television for size demonstration and explained why a larger screen and projector would not be a feasible option. Emrick recommended the purchase of one 70 inch television to determine if displays using two televisions would be effective. **Motion:** Anderson made a motion, seconded by Goldfinch, to allow Emrick to purchase two 70 inch televisions for Council Chambers. **Amended Motion:** Timbes made a motion, seconded by Alford, to allow staff to purchase one 70 inch television on a trial basis. Mayor Blain-Bellamy called for a vote on the original motion made by Anderson. **Vote:** White, Anderson, Goldfinch, and Smith voted in the affirmative. Motion carried.
