Bob Scarborough expressed his concern about the repaving of Laurel Street and expanded the list, presented at a previous meeting, of potential damages that could be incurred during the repaving process. He commented that failure to repair the road bed and patches from water/sewer repairs that are sinking contribute to problems and should be properly addressed.

Stephen Horton, a resident of Shandwick Drive in the Elmhurst Subdivision, requested three speed humps and a community watch sign to help control traffic. He noted that a left turn lane off Mill Pond Road into Elmhurst would be beneficial.

Michelle Miller presented her complaint regarding communication problems between Conway Police Officers and the youth in her neighborhood. She suggested a meeting of officers with these young people or mentoring by police officers or firefighters to foster friendlier interaction.

Fauvreau was present in support of her request and advised Council that she had no objection to the parking spaces on Laurel Street near 3rd Avenue being removed to make the franchise agreement acceptable to Council. **Motion:** Anderson made a motion, seconded by Goldfinch, to approve first reading of Ordinance #2018-05-21 (B) with allowed parking areas revised to omit the spaces on Laurel Street near 3rd Avenue. **Vote:** Unanimous. The Rivertown Landing Planned District, approved by Conway City Council in 2007, is now known as Carsen’s Ferry. Previous amendments to this PD removed all commercial and multi-family zoning from the rear most parcels and replaced them with single family homes on 50 lots. Hyman advised Council that the ordinance currently being proposed would remove 3.5 acres from the “Commercial” tract to be added to the “Residential” tract for development of Phase 5. This revision would add 18 residential units to the 50 referenced above for a total of 68 units. Approximately 1.5 acres will remain in the “Commercial” tract. The zoning requirements for Phase 5 will be the same as Phases 1-4. Hyman advised Council that the language relative to a subdivision sign should be stricken from the proposed ordinance as it is no longer needed. The Comprehensive Plan identifies this parcel as Mixed Use on the Future Land Use Map. Staff recommended first reading approval of the ordinance, revised to remove all language relative to a subdivision sign. **Public Hearing:** There was no input from the public. **Motion:** Blain-Bellamy made a motion, seconded by White, to close the public hearing. **Vote:** Unanimous. The City was to pay half of the cost and the other half was to be paid with CTC funds. After some Laurel Street residents expressed concerns that the vibration from the milling machine could possibly damage their older homes, City Council voted to remove the section between 5th Avenue and 9th Avenue from that project during its September 19, 2016, meeting. WORKSHOP:

A. Discussion on request to annex approximately 15 acres of property located on Yeager Avenue (TMS 151-00-04-016 | PIN 38300000338) and to rezone from Horry County Limited Industrial (LI) to City of Conway Heavy Industrial (HI). Hyman remarked that Vulcan Lands, Inc., had submitted this request to accommodate the development of a rock yard with concrete crushing. The request was considered by the Planning Commission at its April 5th meeting at which time a motion to recommend approval of the request failed 4-3. No subsequent motion was made to deny the request. She reported that concerns had been raised by the community in regard to environmental issues, in particular noise and air quality. John Poston of Castles Engineering, explained that Vulcan would be required to comply with City regulations for the HI zoning district as well as state and federal air quality regulations. Hyman informed Council that the subject property is contiguous to the Fairways. She also confirmed that this activity (cement crushing) would not be allowed under County zoning regulations; however, there are two legally nonconforming businesses nearby that currently engage in this activity. Jimmy Fleming of Vulcan Lands Inc., spoke of Vulcan’s knowledge, expertise and measures taken to ensure employee wellness which will, in turn, protect nearby residents. He stated the material is currently brought in by truck; depending on the market and supply, railing these materials in will take approximately 22,000 to 36,000 truck trips off Highway 501 as well as help maintain the integrity of the rail site and the industrial park. Adam Boyles of RJ Corman Railroad commented that Corman fully supports the rezoning request for this property and the company looks forward to a partnership on this property and to railing in materials. At the invitation of Goldfinch, Barbara Eisenhardt addressed Council with concerns of the residents in the Wild Wing community. She appealed to Council to leave the property zoned Light Industrial. Eisenhardt also spoke on the hazards of silica that is released during the concrete crushing process; however, Fleming noted that silicosis is an occupational illness, not an environmental illness. OUTCOME: A public hearing and consideration of first reading will be on the agenda for the upcoming Council meeting.

B. Discussion on proposed plans for infrastructure improvements in Kingston Park at corner of Fourth Avenue and Main Street. Emrick reviewed with Council a proposal for these improvements which include signage, string lights, landscaping, etc. He explained that
the idea of shade sails over the park had been discarded in favor of having a mural and umbrellas at tables. Timbes requested that the poles holding the string lights be made more decorative. The estimated cost of the proposed improvements is $51,800. In addition to seeking grants, partial funding will come from a grant from the Coastal Carolina Association of Realtors, a small contribution from the owners of the Rivertown Roasters, and the City.

**OUTCOME:** There was no opposition voiced to the proposed plan for improvements in Kingston Park.

C. **Update on options to help enforce “No Left Turns” at the Kingston Street/Main Street intersection.** Chestnut gave an update on his communication with SCDOT on measures to help prevent left turns at the Kingston Street/Main Street Intersection. SCDOT will allow delineator posts; however, Chestnut advised that the posts would have to be yellow, not white. He also mentioned that, even though the posts are somewhat flexible, damage could result to cars if they run over them. There was discussion on asking DOT for permission to use white posts in lieu of yellow, the low visibility of existing “no left turns” signage, the extent of the problem of drivers ignoring “no left turns” at that location, and other options. Chestnut advised that SCDOT will also allow the painting of “no left turn” on the street and he estimated the cost to be $3,000 to paint the warning on Main Street and to upgrade the painting on Kingston Street to match. **OUTCOME:** Staff will proceed with having the warnings painted on Main Street and Kingston Street and the City’s Public Information Officer will assist with educating the driving public. Council may revisit this issue in the future if necessary.

D. **Discussion on replacement of Riverwalk deck boards.** Jarrett presented information and a proposal to Council to upgrade the boards on the Riverwalk with composite decking. He gave a 25 year cost comparison for replacement of pressure treated wood boards and 5/4” composite decking. The total replacement cost for wood on both sides of the Riverwalk over a 25 year period was estimated at $154,47 and for composite decking the estimated cost was $103,296. Emrick noted that, while the Riverwalk boards are in poor condition, the existing substructure appears to be in good shape although additional supports may have to be added. **OUTCOME:** Staff will seek bids for composite decking to replace the boards on the Riverwalk. Bids will be presented for Council’s consideration at a future meeting.

**EXECUTIVE SESSION Motion:** White made a motion, seconded by Smith, to enter into executive session to discuss compensation of an employee [pursuant to SC Code §30-4-70(a)(1)] and negotiations incidental to potential acquisition of property [pursuant to SC Code §30-4-70(a)(2)].
