The following bids were received: Mechanical Jobbers - $52,548.75 and Dun-Right Services - $50,167.60. **G. Proposed new sewer lift station to bypass the Park Hill Subdivision.** Friday reported that the City has experienced sewer overflows in the Park Hill neighborhood during times of extremely wet weather conditions. A new sewer lift station constructed upstream of Park Hill Avenue would divert the sewage flow before it enters the Park Hill subdivision and would eliminate sewer overflows in that neighborhood. The estimated cost for such a proposed lift station is $500,000 which includes the new force main to convey sewage from the new lift station to a 16 inch force main located on Crabtree Swamp Canal. Friday noted that State Legislators Jeff Johnson and Kevin Hardee, who represent portions of the Conway area, have expressed an interest in exploring state funding opportunities for this project. Based on the need, staff recommended that City Council set a priority on this project and authorize staff to move forward with efforts to obtain needed funding for implementation. **Motion**: Goldfinch made a motion, seconded by White, to approve staff’s recommendation. **Vote**: Unanimous among those present. Motion carried.

Staff recommended that, in lieu of demolition, the entry door of the building be covered with plywood and vinyl siding at an estimated cost of $254.32. **Motion**: Timbes made a motion, seconded by White, to approve staff’s recommendation. **Vote**: Unanimous. Motion carried.

**J. Consideration of location for a new floating dock on the Conway Riverwalk.** On April 18, 2016, Council voted to include $100,000 in the FY 2016-17 budget for the construction of a floating dock along the Conway Riverwalk. At that time, staff recommended that the dock be placed between the Lower Warehouse and Bonfire Taqueria based on the original Riverwalk master plan. During a tour of the area to review potential locations for the dock, there was some interest among Council in two other possible locations for the dock. Hughes noted that in order for the proposed floating dock to be constructed in a location other than as shown on the master plan, a permit from the Corps of Engineers would have to be obtained and that process would require a new site plan. **Motion**: Timbes made a motion, seconded by Anderson, to approve the site shown on the Riverwalk master plan (area between the Lower Warehouse and the Bonfire Taqueria), as the location for the proposed floating dock. **Vote**: Unanimous. Motion carried.
ITEMS FOR INFORMATION:

A. Fiscal Year 2015 - 2016 budget update as of June 30, 2016 was presented by the Finance Director as information.

B. Quit claim deed to railroad spur property on proposed Riverfront Development site. Graham reported that RJ Corman Railroad Company has agreed to provide the City with a quit claim deed to the separately platted railroad spur extending from the main line onto the proposed riverfront development site. Upon receipt of the deed, the City will present an Ordinance for consideration at a future Council meeting to convey title to this property to Burroughs Company pursuant to the provisions of the riverfront/downtown development agreement.

ITEMS FOR DISCUSSION:

A. Proposed procedure for awarding budgeted grant funds to in-city schools. During the annual budget retreat, Council included $3,000 to fund one $500 grant to each of the six in-city schools (Conway High School, Conway Middle School, Whittemore Park Middle School, Conway Elementary School, Homewood Elementary School, and South Conway Elementary School). To enable the awarding of these grant funds, staff proposed that each school receive the grant by identifying a project benefitting the school and the community. Written proposals submitted by the six schools would be presented for Council’s review. Motion: White made a motion, seconded by Anderson, to approve the process proposed by staff for awarding the above-referenced school grants. Vote: Unanimous. Motion carried.

B. Revised Grant Request application. During the August 15, 2016 Council meeting, staff presented the proposed grant request application and guidelines. Council recommended additional wording that would emphasize that the special rules and guidelines for certain funds are mandated by state law. Williams noted that staff will strongly encourage organizations to comply with the set deadline for funding requests. Mayor Blain-Bellamy recommended a committee consisting of Council Members Goldfinch and Alford, the City Administrator, and the Finance Director to finalize the details.

C. Proposal for new LED street lights offered by Santee Cooper. Chestnut noted that the City would save $3,008.40 per year by upgrading 50 conventional street lights per year to energy efficient LED lights; however, to upgrade to the next brighter LED light, the City would spend $31,889.52 more per year. Chestnut noted that most of the street lights that could be upgraded to a more powerful LED instead of the equivalent LED are located in residential areas. Staff recommended that the City participate in the Santee Cooper LED program with the conventional street lights being converted to equivalent LED lights. Motion: Anderson made a motion, seconded by White, to approve staff’s recommendation. Vote: Unanimous. Motion carried.

D. Update on the repair of the retaining wall on Main Street. During the October 2015 flood, the brick wall at 701 Main Street collapsed. E. Proposed Request for Proposals for development of Riverfront Master Plan. Emrick reported that, with the pending property transfers from the Burroughs Company to the City of Conway, the redevelopment of both the Riverfront area and other downtown commercial areas is likely to occur and
a master plan is necessary to assure that the connection of these two areas is purposeful and coordinated. In addition, Emrick noted that the opportunities presented by the redevelopment of the former Grainger Steam Plant property necessitate the Master Planning of areas in that vicinity. Staff requested approval to issue a Request for Proposals so that a consultant or group of consultants may be employed to develop these master plans. **Motion:** Goldfinch made a motion, seconded by Anderson, to accept staff’s recommendation. **Vote:** Unanimous. Motion carried.
