Graham reported that the Task Force on the proposed Unified Development Ordinance has recommended that, in light of current economic conditions, a moratorium be placed on the enforcement of certain sections of the Zoning Ordinance to stimulate economic development within the City. The sections cited relate to continuance of nonconforming uses, structures, or characteristics of use, and landscaping improvements. ITEM FOR CONSIDERATION: Acceptance of $400,000 SCDOT Enhancement Grant to construct Long Avenue Extension multi-use trail. The City was recently notified that its application for this grant had been approved. The grant for $400,000, with matching City funds up to $100,000, will be used to construct an 8' wide asphalt multi-use trail along Long Avenue Extension and Highway 813. In addition to the asphalt paving, several ditch sections will be tiled. Staff recommended acceptance of this grant and that Council authorize the SCDOT to provide administration and management for this project. Motion: Koon made a motion, seconded by White, to approve staff’s recommendation. Discussion: Goldfinch advised council that he has had feedback from community residents in the project area and conveyed concerns regarding compensation for removing items from the right-of-way, parking space for persons using the trail, and increased traffic in these neighborhoods. He also expressed his concerns over the cost of maintenance for the trail and asked if Council would commit to exploring options for providing parking space. Goldfinch also inquired about notice to neighborhoods to be affected by the trail. Mayor Lawson noted that project area must be outside the GSATS boundary to qualify for these funds and only a small portion of the area inside the city limits met that criterion. She asked staff to research the availability of any dedicated open space in the project area neighborhoods that might be used for parking. Vote: Goldfinch voted in the negative; all others present voted in the affirmative. Motion carried.
