Graham advised Council that consideration could be given to lighting the mural of the sidewheeler, as long as it remains and could be considered as part of the City’s participation in an agreement for a new mural should one be painted on the wall. Mr. Charles Parrish was present for this item of business. Staff recommended first reading approval. These speed mitigation measures will be monitored for 90 days to gauge their effectiveness, and if additional measures are warranted, up to two speed bumps will be installed on Augustus Drive. A map depicting the proposed location of these traffic calming measures was shared with Council along with the signed petitions. **Motion:** White made a motion, seconded by Goldfinch, to approve staff’s recommendation as presented and to authorize the Public Works Director to schedule the work to be done. **Vote:** Unanimous.
