**ORDINANCES FOR FIRST READING:**

A. **Ordinance #ZA2014-05-19 (B)** Accepting the request by Beverly Homes LLC to rezone, with stated conditions, approximately 33.85 acres of property located behind Rivertown Row Subdivision and identified by Horry County Tax Map Number 122-22-04-011 and Horry County PIN #33700000033 from Planned Development District (PD) to Medium Density Residential (R-2). On May 5, 2014, the public hearing was held and first reading of this ordinance was considered by Council but was tabled pending receipt of additional information. The rezoning request was discussed in greater detail by City Council, staff, and the applicant in the workshop portion of the June 2nd City Council meeting. Based on input received at those meetings and further discussions between staff and the developer, staff recommended approving the rezoning request from PD to R-2 if the developer agrees to meet the following conditions: A 15' wide Type B landscaped buffer between the proposed development and the adjoining single family lots located in Rivertown Row Phase I is required and must be in place before construction begins. The buffer will be deeded to and maintained by the homeowners association for the proposed development; Phase I will include lots 1-37 and Phase II cannot start until a second access to provide emergency ingress and egress to the subdivision has been completely built and dedicated to the City; the second access may be
provided by the road between lots 48 and 49 or the second access may be provided by a road at another location provided it is acceptable to the City but it cannot be located between lots 6 and 7; 5.08 acres of open space is required; a reviewed and approved plan for use of the open space is to be implemented during Phase I; the development must include only single family detached houses. Mayor Lawson invited comment from those in attendance. Dwaine Koscielniak, 1113 Millsite Drive, inquired as to the type of trees and shrubbery the Type B buffer included and expressed concern regarding the removal of the existing trees. Marc Passantino, 1608 Sunmeadow Drive, expressed concerns about who would be responsible for maintaining the buffer. Randy Beverly of Beverly Homes LLC reiterated his concern that his company does not own the property where the second access for Phase II is to be located and requested reconsideration of the second access being located between lots 6 and 7 with a gate at the access point. Mayor Lawson suggested to Beverly that discussions on that issue should be deferred until a later date. **Motion:** Anderson made a motion, seconded by Blain-Olds to approve first reading of Ordinance #ZA2014-05-19 (B) with conditions as stated. **Vote:** Unanimous. Motion carried.

Communication Management, Inc., a state contract vendor, has submitted a proposal to reroute the fiber data connection from the Police Department to the Finance building for $28,346.08. A second proposal, also submitted by Communication Management, Inc., is to furnish and install a fiber data connection from the new Conway Public Safety Building to the county fiber optic line near 9th and Elm Street for $58,797.59. Motion carried.

D. **Offer to provide bus shelters in Conway by Waccamaw Regional Council of Governments.** Graham reported that the City of Conway was recently contacted by Mark Hoeweller, Assistant Director of the Waccamaw Regional Council of Governments (WRCOG), about installing bus shelters along Coast RTA bus routes in Conway. He further remarked that these bus shelters that had been purchased by WRCOG had previously been obtained several years ago through a grant by Coast RTA; however, however had advised the City that, because Coast RTA lost the grant for the shelters, Coast RTA will not be involved with the installation of any of these shelters in any way. Graham reported on the City’s past experience with the one shelter that had been installed and later removed due to complaints; that shelter is now in storage at the City’s Public Works Complex. Graham also explained to Council the expense and liabilities that the City would be responsible for should it accept and install the shelters and that there are no budgeted funds to cover this expense. is not aware of any requests for bus shelters from the citizens of Conway; however, the City has been contacted by Coastal Carolina University (CCU) about obtaining 16 of the bus shelters for use with its campus bus system and CCU has offered to pick up, install and maintain these shelters. Due to the cost and lack of budgeted funds and the liability, staff recommended that the City of Conway should decline to be involved in the installation of the shelters within the City. However, staff did recommend the City request Waccamaw Regional Council of Government give 16 shelters to Coastal Carolina University because of their willingness to bear all of the expenses. Mayor and Council were in agreement with staff’s recommendation.

The Council meeting recessed after this item of business and reconvened in the Conference Room for the remainder of the meeting.
