**ITEMS FOR CONSIDERATION:**

A. **Approval of water pump station agreement with Grand Strand Water and Sewer Authority and authorization of City Administrator to execute documents.** Graham reported the proposed agreement is an excellent example of intergovernmental cooperation. The joint project would improve water pressure and water flow for both systems. Graham explained that the agreement is for the construction of a water booster pump and connections near the corner of Mill Pond Road and Oak Street. According to the agreement, Grand Strand Water and Sewer and the City will equally
share in the cost of construction, maintenance, and operation of the booster pump station. The cost of eventual replacement of any equipment, apparatus included in the original construction of the booster pump project, including the pumps, water lines, valves, etc., will also be shared equally. The initial construction cost for the project is estimated to be $1,028,608; therefore, the estimated initial project cost for each entity will be $514,304. The estimated operation expense for electricity and daily maintenance is $81,443 annually, which would be shared equally. Graham noted that by joining with Grand Strand Water and Sewer Authority, this project will save the City approximately $1 million. City staff and the City’s legal counsel have reviewed the proposed agreement. Staff recommended that Council approve the water pump agreement with Grand Strand Water and Sewer Authority and authorize the City Administrator to execute the necessary documents. **Motion:** Goldfinch made a motion, seconded by Alford, to approve staff’s recommendation. **Vote:** Unanimous. Motion carried.

COUNCIL INPUT:

Alford proposed that the City look into having a “Walk to Work” day in the City of Conway. There was a consensus of Council to consider such an event.

Anderson commented on the job well done by City staff in preparing for the budget retreat and his enjoyment of time spent with City Council during the retreat.

Mayor Lawson, Goldfinch, and Blain-Olds reiterated Anderson’s comments regarding the budget retreat.

Blain-Olds noted that her comments about the safety and security of the City were not intended as an indictment of the Police Department. She clarified that it is her belief the Police Department does a great job and she wants to be sure that the department stays fully staffed, gets all necessary training, and has the full support of Council.

Mayor Lawson remarked that some of the newspaper articles referencing the safety of the community did not do justice to the Police Department. She expressed appreciation for the efforts of the Police Department and its creative programs, and also thanked the neighborhood watch groups for their hard work.

The Council meeting recessed after this item of business and reconvened in the conference room for the remainder of the meeting.

WORKSHOP SESSION

Discussion on proposal to amend landscaping and buffering requirements in Article 9 of the City’s Unified Development Ordinance to provide for buffering based on Zoning Districts rather than Land Uses.
