Logan Parks and Recreation Department 2016 Spring and Summer Leisure Guide
GRAFFITI IS NOT COOL AND AGAINST THE LAW

DON'T DO IT!

Logan Parks and Recreation Department would like to remind the public that graffiti of any kind, including chalk, is a crime under Utah Code.

76-6-107
(b) "Graffiti" means any form of unauthorized printing, writing, spraying, scratching, affixing, etching, or inscribing on the property of another regardless of the content or the nature of the material used in the commission of the act.

Graffiti removal requires staff time and City financial resources. In fiscal 2015, personnel time, materials, and equipment were spent in the form of tax dollars to clean up various City properties.

If you vandalize City property—you may get caught on camera. These photos were taken on January 22, 2016 in the tunnel under Highway 89 located at Canyon Entrance Park.

If you discover graffiti on City park property, give us a call at (435) 716-9250.

For more information contact Logan Parks and Recreation at (435) 716-9250

YOUTH BASEBALL CLINIC PARTNERSHIP

PARTNERSHIPS AT WORK

The Parks and Recreation Department partnered with the USU Club Baseball team to promote and teach baseball to youth ages 7-14. Schools visited were Ellis, Bridger, Wilson, and Hillcrest.

These clinics along with the clinic offered at the Logan Recreation Center were meant to give youth a positive baseball experience. The youth were invited to participate in Logan youth summer baseball.

Each clinic taught the mechanics of hitting and throwing. Youth also learned about the different types of gear and equipment that are used in baseball.

The USU club team used these clinics to promote their upcoming season. Their hopes are to get these kids and their families out to enjoy time together at the ballpark.

A PLACE FOR FAMILIES

Willow Park Zoo is a place where families and students come for relaxation, local entertainment, education programs, and conservation efforts. Approximately 70,000 people visit annually and that number is steadily growing.

Willow Park Zoo is home to 220 animals. The collection includes a wide variety of species, including muntjac deer, yak, capuchin monkey, bobcat, red fox, green iguana, king snake, insects, and a wide variety of exotic pheasants, waterfowl, and tropical birds.

The Zoo’s animal collection includes rare and endangered animals. WPZ’s endangered African grey crowned cranes hatched and raised 2 chicks in 2014. The Zoo is home to NeNe geese, trumpeter swans, bald eagle, citron crested cockatoo, Canada lynx, uromastyx lizard, and other rare species.

Special events are offered at the zoo almost monthly. From big fund-raisers, to carnival-like events, to science nights, to date nights, there is a fun event for everyone.

The education programs at the zoo run the gamut from school field trips and outreach programs, to scout merit badge classes, storytime, and summer camps. They also offer adult classes - nest box construction and nature photography, for example. The best way to know what is happening at the zoo is to go to their home page - willowparkzoo.com or find them on Facebook at facebook/willowparkzoo.

This small but vibrant zoo wants to change everyone who comes to the zoo in a positive way. Personal animal encounters, zoo keeper talks, and changing exhibits and signs provide that special touch.

GRAVE PREPARATION AND NEW PUMP STATION

WINTER GRAVE PREPARATION

We are here to serve the public and one of our many duties is winter grave preparation. Though it can be difficult we enjoy serving people in their greatest times of sadness and trial. Once a grave location is found, any snow on the ground is removed from a fifty by fifty foot area. This gives enough room to dig the grave and also install a tent for the graveside service. Often, a headstone needs to be moved to make room for the grave. If this is the case, the headstone is heated with blow torches for about an hour and a half. It is then carefully lifted out of the way using bars. At this point the grave is ready to be dug. A backhoe is used, first going through 4 to 12 inches of frozen ground, then through gravel or clay to the depth of six feet. This process can take up to three hours. A vault company is then contacted. The vault company comes to place the vault in the grave. They also take care of setting up a tent and chairs, making the graveside area as comfortable as possible. Once the services are over, the vault company takes down the tent and chairs, lowers the casket, and seals the vault lid. Cemetery staff will then fill the grave, clean up the surrounding area, and place flower arrangements on top of the grave.

NEW PUMP STATION

A new pump station is being installed at the cemetery to replace the pump that was installed in the 1930’s. This new pump will be more efficient. It will also pump secondary water coming from the Logan River instead of using culinary water. Both improvements will save on operating costs.

Logan Parks and Recreation Department 2016 Spring and Summer Leisure Guide
I still look over my left shoulder when I reach the top of the Dugway to look for oncoming cars before easing up to the light on 400 North. Growing up in Logan, there were certain things that became ingrained in me. Even though the traffic flow at that intersection has changed over the years, I still have to take a quick glance and check for a car that I know is not coming. My wife asked me one day why I did this, I explained to her, “That’s just the way it always was growing up for me.”

“What does this have to do with Parks & Recreation?”, you might ask. I’m getting to that. Besides picking up an odd OCD behavior in my youth, I also gained a love for sports and competition that began with many of the programs offered by the Parks & Rec Department.

Every year without fail, I was signed up for Jr. Jazz basketball in the Winter, soccer in the Spring, baseball in the Summer, and Fall was soccer again and/or flag football. Somewhere in between all that, I learned to swim at the old Municipool, took some tennis lessons, travelled to the Utah Summer Games, made a few turns around the ice rink at Merlin Olsen Central Park, and spent the rest of the time as a “Rec Rat” at the Logan Rec Center. I probably didn’t have much choice in all of it since my mother worked at the Rec Center for 17 years but then again, I was having too much fun to really care at that point and that’s just the way it always was growing up for me. I may not have realized it at the time but, I was also learning valuable life lessons that fostered my love of sports and prepared me for later in life. Lessons like; teamwork, giving it your best, winning with grace, and that you’re not always going to win.

I moved back to Logan a few years ago and have kids of my own now. My 6-year-old son is finishing up his first season of Jr. Jazz basketball and I find myself in a familiar place and feel at the Rec Center on Saturdays. Watching my son’s games, I can’t help but smile as I watch him enjoy the same experiences I had as a youth and know that in all his fun he is learning the same lessons that stuck with me. As parents we want the best for our children and try to instill in them the best parts of ourselves. Part of what I want to impart on my children is a love of sports and healthy competition. Hopefully if anyone asks them later in life what makes them the way they are, their answer is, “That’s just the way it always was growing up for me.”
