Mayor Wissman recognized Angela Reeder, Town Planner. Ms. Reeder stated that staff has identified several sections of the Zoning Ordinance that required additional clarification or language to further the Town’s goals. She noted that Chapter 2 adds a definition of special events and clarifies it is for temporary activities that would not otherwise fall within standard uses on a site. She explained the changes in Chapter 4 to permit ‘Indoor, Climate-Controlled Self-Storage’ in General Commercial (B-2) zones with a Conditional Use Permit and subject to a set of guidelines. She explained the addition of language in regard to Temporary Uses such as Construction Offices, Real Estate Sales Offices, Yard Sales, Construction Dumpsters, and Portable Storage Units.
The language for Special Events is in direct response to the Special Event Application that was adopted by the BMA in November 2017. She noted that the performance standards address location, compatibility, compliance with other regulations, duration, street closings, public safety, litter control and other nuisances, and Town services.

Main Motion: Alderman Brooks made a motion to approve the First Reading of Ordinance 2018-02. Alderman Biggs seconded the motion.

Mayor Wissman called for discussion and questions. Alderman Brooks inquired about the distance that a fence should be set back some from the retaining walls. Ms. Reeder explained the recommendation is 4 feet. Alderman McKee inquired about the current code in regard to pools and the required rear-yard setbacks. Ms. Reeder explained that the code requires that no more than thirty (30) percent of a required rear-yard be used for accessory structures. She noted that the amendment proposed would only ask that any concrete be added into the required rear-yard to help a homeowner retain water on their own site. The Town is becoming an MS4 community and to meet certain stormwater regulations, homeowners must be able to retain one inch of water on their site. She stated that previously the Town has not calculated the concrete into the required rear-yard and it has shown some concern of drainage issues at several sites. Alderman McKee explained that outdoor living space is a big trend and thinks there should be a better way to handle drainage. Ms. Reeder stated that one alternative to concrete is landscaping.
