She advised that projected revenues for the Fiscal Year of 2017-2018 are $8,123,700 which is an increase of $610,000 from projected revenue for 2016-2017. She explained that this is partly due to the adoption and the effective date of the storm water fees and property reappraisals. She advised that the Town has a five year Capital Improvement Plan which is maintained to guide large capital projects and related expenses. With the assumption that the property tax rate is going to be presented at $1.15, each penny of that personal property, real property and utility tax
generates 37,374.13. Mayor Wissman responded it had already passed through DRC and they had a few minor landscaping issues to make adjustments but the building layout was fantastic and they did an excellent job on it. Angela Reeder added that they have responded to all of the commission comments already.

Alderman McKee inquired if the building would be similar to the Dermatology Clinic as far as the distance from the street and about parking. Ms. Reeder stated the driveway would come around the building on Airline Road itself and there would only be one row of parking there. She explained that they have angled the building with a drop off area that points towards the intersection and brings the covered drop off area closer to the intersection. Alderman Lamar inquired about road improvements. Ms. Reeder explained there would be improvements to Will Harris and Airline Road. Vice Mayor McKee inquired about whether they would work with Olympic Steak and Pizza who is developing across the road. E. Other as properly presented.

Resolution 2017-17 to authorize a Development Agreement with Richard H. Leike for the construction of the Arlington Place Subdivision Phase 2 located west of Airline Road and north of Milton Wilson Blvd.
Mayor Wissman recognized Angela Reeder, Town Planner, who presented a report (on file). She advised this request is for a standard development agreement for a new commercial subdivision located between Arlington High School and Airline Road, north of Milton Wilson. She noted this is phase two of the Arlington Place Subdivision and will create five commercial lots, 3 fronting Airline, one on Milton Wilson, and a larger 6.5-acre parcel with access to both. Development of the subdivision requires public improvements including sewer and improvements to Airline Road. The Planning Commission considered the project at their February 21 meeting and approved it. She noted an addendum to the development agreement is included to clarify that the town is paying for a portion of Airline Road that falls outside the standard requirements for a developer. She explained the situation is similar to the Kroger project, where a profile change in the road required both sides to be adjusted. Ms. Reeder advised that staff recommended approval.

Honorary Mayor Ian West called for a motion.

**Main Motion:** Alderman Harmon made a motion to approve Resolution 2017-17. Vice Mayor McKee seconded the motion.

Mayor Wissman called for discussion and questions. Alderman McKee asked if this was the property behind O’Reilly’s and the dermatology lot. Ms. Reeder responded this agreement would actually create the lot that O’Reilly would ultimately be on, clarifying the site extends from the dermatology clinic north on Airline to the high school property. Alderman McKee inquired about of having several lots and detention ponds and whether they were able to incorporate those together. Ms. Reeder responded that since this is a subdivision and not a planned development for the site, each lot would be responsible for their own detention. Ms. Durant added the natural flow of the water will not change from how it flows today, or rather it would not increase flow onto other adjacent properties. Town engineer Jason Allen confirmed each lot would be responsible for their own detention based on impervious area that is added. Ms. Reeder explained the subdivision it does incorporate shared access through identified driveways, limiting the number on Airline Road. Ms. Durant stated that if DRC does a good job with landscaping, layout, and building elevations the individual detention basins shouldn’t be a problem. Mr. Harmon asked how many lots we were talking about. Angela Reeder explained its five lots, four which would typically be considered outparcels, and a 6.5-acre lot in the back that could accommodate a larger development. She said you would likely end up with a larger retail center with outparcels, and through proper review it could have continuity. The access would tie them together. Vice Mayor McKee asked if the frontage had three lot. Ms. Reeder answered yes on Airline Road. Vice Mayor McKee asked if our hands were tied on that. Town Attorney Gerald
Lawson added that the subdivision was approved by the planning commission and the purpose of this item is an agreement for construction of public improvements. Vice Mayor McKee asked if the road improvement were for the entire frontage at one time. Ms. Reeder answered yes. Vice Mayor McKee asked if the lots fall within regulations. Ms. Reeder added the smallest lot was 1.25 acres and the commercial shopping center zoning would allow down to 10,000 square foot commercial lots. She noted they are of a size that you could develop something similar to the O'Reilly and get the associated improvements all along that parcel.

After hearing no further discussion, Mayor Wissman called for a vote on the main motion.

Alderman Thompson abstained in the interest of transparency and disclosure; he owns a business that is a tenant of Crye-Leike Property Management.
