Spring Time Clean up!

Did you Know?
Small tree limbs, bagged leaves and bagged grass trimmings (less than 6 cubic yards) can be picked up on your regular trash day if placed next to your garbage container by 7:00 a.m.

What is 6 cubic yards?
Approximately 6 ft long x 5 ft high x 5 ft wide not to exceed 35 pounds per item.

~Keeping Arlington Beautiful~

For larger projects and debris piles such as boxes, furniture, etc. there is a claw truck that will come by every Wednesday. In order to pick up your larger pile or items you must contact Public Works by 2 pm the Tuesday before to be placed on a special pick up list. Items will need to be placed on the curb by 7am Wednesday morning.

If you need sooner service, please contact Public Works to make an appointment

Do’s and Don’ts
- Waste Pro will NOT pick up trash from personal trash cans. Simply place extra bags next to your Waste Pro Trash Can.
- Do NOT placed bagged items in the recycle cans, only loose preauthorized items.

- Make sure that debris is not blocking storm drains in the street. If debris block drains it can cause flooding and other issues
- Oil based paints, batteries, used motor oil, tires and appliances containing Freon will NOT be picked up. These items can be disposed at Shelby County Hazardous Waste Center on Mullins Station Rd.
