The Meeting was called to order by President Kuser at 7:30 p.m. The Salute to the Flag was recited, followed by an Invocation given by Councilman Shaw. The Open Public Meetings Act Statement was read by Deputy Township Clerk Kathy Costello. Mrs. Costello asked that all cell phones be turned off or muted and reminded everyone that this is a non-smoking facility.

ROLL CALL: ANDES, FITZPATRICK, GOLINSKI, SHAW, SMITH, STECKY, KUSER
ALSO IN ATTENDANCE: MAYOR HUSSA, ADMINISTRATOR WARD, FACILITIES MANAGER CIARDI AND TOWNSHIP ATTORNEY DI YANNI

President Kuser advised that R-11-139 is being removed from the agenda.

LIAISON REPORTS:
Councilman Golinski reported that the Fire Department is conducting their fund-raising drive and he encouraged all citizens to support their efforts. Mr. Golinski noted that the Firemen’s Carnival will be held from June 28th through July 2nd. He advised that the Local Assistance Board’s last meeting was cancelled due to the excessive heat, but they will be holding meetings shortly to prepare for the upcoming change to Local Assistance Advisory Committee.

Councilman Stecky noted that the Beautification Committee is finishing up the tiling of the new planters and they are looking for more volunteers to help maintain the plants. Councilman Shaw reported that he attended a meeting of the Downtown Economic Development Committee. He advised that there was a group of business people there who outlined an early-stages proposal for building a parking garage in the center of Denville. Mr. Shaw noted that it is his recollection that the plan called for two stories of parking and a third story for high-end stores. He said that the developer realizes that the target area is in a flood plain but he is confident that his engineers can overcome that problem. Mr. Shaw stated that, if the plan came to fruition, it would include the use of jitney buses with routes to our shopping areas, including those on Route 10, the train station and the local restaurants. He encouraged the Council to keep an open mind with regard to this development idea.

Councilwoman Smith recognized the fact that today is Flag Day. Mrs. Smith then stated that it is embarrassing to read in the newspaper that the President of the Historical Society is asking for volunteers. She said that she had brought the subject up to the Council and asked if the members could find some time to spend a couple of hours on a Saturday to help out as a Docent. Mrs. Smith noted that she has advised Ms. McBride that she will volunteer in the Fall, when she has more time. She encouraged the members of Council, as well as members of the public, to do the same.

Councilman Fitzpatrick reported that the Planning Board will hold its first meeting of the month on Wednesday, June 22nd. He said that, at this time, the only thing on the agenda is a proposal for a Picatinny Federal Credit Union to be built on the site of the
old Second Half restaurant on Route 53.
Mr. Fitzpatrick advised that some residents did come out at the last meeting to offer feedback on the proposal and he feels they will be addressed at this next meeting.
Councilwoman Smith cited the traffic flow at the TD Bank, which is a little further down Rte. 53, and urged Mr. Fitzpatrick to look carefully at the ingress and egress, to be sure they are wide enough, if this project moves forward.
Mr. Fitzpatrick agreed and noted that traffic was one of the biggest concerns for the Planning Board and the residents.
Councilman Andes had no report.
President Kuser announced that the POWWW 25th Anniversary celebration will include a concert at Firemen’s Field on Sunday, July 17th from 4 to 9 p.m. He said that there will be a $500 prize for the best environmental song that is submitted. Mr. Kuser added that the admission fee is $5 and it should prove to be a very fine event. He urged everyone to attend.

MAYOR’S REPORT:
Mayor Hussa noted, for the sake of clarification, that the plan that Councilman Shaw was speaking about was a conceptual plan. He said that there was no conclusion reached because the property that they want to build on is Township property. Mr. Hussa advised that he asked them for a business plan and he is waiting for that now. He said that, before anyone gets too excited, it must be determined how it would be handled; would there be some type of lease agreement or some other method. President Kuser asked if the location that is being discussed is behind Hunan Taste. The Mayor replied that it is.
Councilwoman Smith asked the Mayor why, if people don’t park in that lot now, would they park in a municipal garage in that location.
Mrs. Smith further commented that people don’t park there because they say it is too far to walk and it does not make sense to her to think that they would park there if there was a garage.
Mayor Hussa repeated that he is waiting for a business plan and does not know any details about the cost of parking in the garage or any other details of the project. Mrs. Smith said that she is just questioning the location.
Mayor Hussa responded that the reason they chose this location is that they feel it is an under-used area. He said that they feel that, if they put retail on the Route 46 level, it would be a desirable place to have mixed use retail and luxury condos. The Mayor commented that, that is their marketing plan, not ours. He said that these individuals have approached the Township and asked the Township to consider some kind of agreement to use Township property for their project.

ADMINISTRATOR’S REPORT:
Administrator Ward reported that the December 26th blizzard was declared a state of emergency and the Township submitted its receipts for salt, overtime and plowing to
FEMA. He advised that last week the Township received a check for $81,369 in reimbursement for some of those costs.

Mr. Ward noted that last week he, John Egbert and some other employees, met with representatives of the MUA to discuss the move towards single source recycling. He explained the difference between the current requirements and the single source procedure, noting that single source is much simpler for the residents. Mr. Ward further explained that residents will no longer have to separate recyclables, everything can be put in one container and will be sorted at the recycling plant. He noted that additional items will be accepted as recyclables and the move should increase the recycling in town.

President Kuser asked if there will be County-wide advertising about this change. Mr. Ward replied that the plant will not be up and running until August or September and a notice will go out with our tax bills. He said that the only real change will be the eventual switch to one day a week collection of recyclables, instead of the two collections that are currently made. Mr. Ward noted that everyone will be notified before that change occurs.

Administrator Ward gave the following update regarding the repair of manholes. He said that progress is being made by using two Saturday crews. Mr. Ward advised that these two-man crews are able to repair two drains in a six or seven-hour period of overtime on a Saturday. He said that, as of about eight days ago, the DPW had repaired 12 basins during normal work hours and 9 on Saturdays, leaving 52 basins to be repaired. Mr. Ward added that there are 37 to be repaired on the road resurfacing list. The Administrator advised that, having done some research on this issue, he found that other towns have also fallen behind with this type of repair. He noted that the research revealed that the cost per basin, using a private contractor, was in the range of $1,500 to $2,000. Mr. Ward said that he has calculated that the cost of using the two-man crews on Saturday, repairing the same basin, will cost $400 to $500.

Administrator Ward reported that there was a preliminary meeting of the Sewer Assessment Committee last week. He advised that the Appraiser, Attorney Paula DeBona, the Township Engineer and members of the Sewer Assessment Committee were present. Mr. Ward said that the format for the public hearings was discussed and notices will be sent to residents in the project area for public hearings in August or September. He noted that, instead of sending individual appraisal packets, everything will be listed on the web site and a copy available in the Clerk's office for perusal prior to the public hearing. The Administrator added that there will be a public portion at the hearings for those residents who are impacted by the sewer assessment. He explained that, once a determination is made at the Sewer Assessment Committee meeting, it will go before the Governing Body for an additional hearing and formal ratification of the sewer assessment. Mr. Ward stated that this will happen sometime this Fall.

Administrator Ward explained that haz-mat service has been being provided by a DPW employee, who has been trained for this duty. He said that this employee received a stipend to carry a telephone for call outs to a car accident where there has been an oil
or radiator fluid spill. He added that some of the calls occur after hours, resulting in overtime pay for the employee. Mr. Ward further explained that our wrecker service has been providing this service and we, therefore, have negotiated with them to take over. He noted that this will negate the necessity to have a DPW worker on call. Mr. Ward advised that, in the case of larger spills or spills flowing into storm basins, the County haz-mat team will be called. He estimated the savings per year resulting from this change to be about $18,000 to $22,000.

The Administrator reported that James Norgalis has resigned and taken a position in Madison. He noted that Mr. Norgalis was serving as Denville’s Health Officer. Mr. Ward advised that he is meeting with the Administrators of Rockaway and the two Boontons to discuss the possibility of a regional health service. Administrator Ward noted that CFO Marie Goble advised him and Mayor Hussa this morning that she will be retiring effective August 31, 2011. President Kuser asked Administrator Ward if he wants to form a committee to interview candidates for the position of CFO to replace Ms. Goble. Administrator Ward advised that he intends to advertise the position on the State of N. J. web site and discuss it with the Council at a work session. Councilwoman Smith asked what options the Township has with regard to a CFO. She said that she knows that we are required to have a CFO by statute. Mrs. Smith asked if we are required to have a full-time CFO. Administrator Ward replied that we are not, but explained that, for a municipality of our size, the size of our budget and the size of our clerical staff in the Finance Dept., he thinks it would behoove us to have a highly qualified, full-time CFO. Mr. Ward further commented that he feels sharing health services is a reasonable avenue to take, but the Chief Financial Officer is a critical position and he would be very concerned about filling it on a part-time basis. Mrs. Smith noted that she realizes that, but wondered what other municipalities might be doing and, if there are any creative options available.

OPEN PUBLIC PORTION:
Ed Banagan, 38 Old Mill Drive, asked how often the Economic Development Committee meetings are held. The Mayor replied that they are held about every 45 days and the meetings are staggered, having every other one in the daytime. He added that they are always on a Wednesday at noon, with an occasional meeting in the evening. The Mayor said that he believes that the next one is in the evening at 6 p.m. He advised that the meeting schedule is posted on the bulletin board just inside the front door. Mr. Banagan asked what R-11-132, which has been removed from the agenda, represents. Attorney DiYanni explained that the Township has a 60 day time period in which to award a contract. He said that the contract covered by this resolution is for solid waste collection and we have until June 27th to award the contract. Mr. DiYanni further explained that the Township received some information from two bidders very recently
and the Township wishes to take a closer look before the Council takes any action. Mr. Banagan asked if there is a public portion for the ordinances. Mr. Ward explained that there is a public hearing on ordinances for adoption but not for ordinances that are being introduced. Bob Belz, 7 Memory Lane, stated that he wishes to thank all of the candidates who ran for election in Denville, for removing their campaign signs so promptly. Gerry Idec, 1 East Longview Trail, commented that he knows that the Police have to sign off when they get gas in the cars and asked what the procedure is for employees when they get gas. President Kuser asked if Mr. Idec has any additional questions so they can all be answered at one time. Mr. Idec noted that Mr. Golinski had previously expressed concern over the cost of gas and over what control the Township exercises in regard to gas usage. He said that he sees a lot of town trucks driving around and asked how the Township can control the gas that is being used. President Kuser replied that he knows it is controlled and he deferred to Mr. Ward for further comments. Administrator Ward explained the each vehicle has a special key for the gas pumps which tracks how many gallons are going into each individual vehicle. He said that each department has a gasoline line item, some larger than others, such as Police and DPW, and the amount of gas that is utilized is charged to their individual budgets. Mr. Idec asked what control there is on who is taking the gas out. He wanted to know how the Township tracks individuals to be sure they are not using more gas than they should be. President Kuser advised that the Council receives a quarterly spread sheet of fuel usage. Councilwoman Smith interjected that she thinks that Mr. Idec is concerned more with the mileage and whether vehicles are being used for purposes other than Township business or driving around doing nothing, just to finish the time on their shift. Mr. Idec said that is correct. Councilman Shaw commented that the keys are individual so car #1 uses key #1 and the gas usage is recorded. Mr. Idec stated that they would not know who was driving that vehicle. Mr. Ward replied that there are very limited individuals who are assigned to each vehicle so it would be easy to narrow down. Mrs. Smith commented that it is difficult to track the trucks by project because some projects are larger than others. She asked if there is a way to track the projects for gas needs. Mr. Ward commented that there is GPS tracking, which we do not currently employ. Mr. Kuser noted that GPS tracking is expensive and we know that the supervisors are keeping track and the employees are working. Mr. Idec disagreed with the statement that GPS is not affordable and stated that the
John Paul Golinski agreed that the local candidates did a great job in removing their campaign signs, but asked what the town is doing with regard to the political signs that are still up on Route 46. He specifically mentioned signs for Nordstrom and Sierchio. President Kuser replied that the sub-committee met today and discussed the loopholes in the sign ordinance. He said that the committee is working to tighten up that ordinance. Mr. Kuser noted that, unfortunately, the Township does not have any jurisdiction on any State or County road.

Administrator Ward interjected that he sent courtesy e-mails to the candidates advising them of our local ordinances and requested that they comply with the ordinances. He added that the e-mails were specifically addressed to the individuals that Mr. Golinski mentioned.

Mr. Golinski asked if anything can be done if they ignore the e-mails. Mr. Ward replied that it was discussed this evening at the sub-committee meeting and the attorney has to do some research into whether or not that aspect is enforceable on roads that are not municipal roads.

Todd Coolman, 104 Sunset Trail, stated that he is here to thank Councilman Golinski for his timely and productive response to a petition submitted by the residents living around the intersection of Sunset, North Shore and Seneca. He said that the petition involved a safety and health issue related to a drainage problem, of significant dimension, in that area. Mr. Coolman advised that the Township was notified of this problem about two years ago and nothing was done. He said that the petition was recently filed and an appropriate response was received from Councilman Golinski. Mr. Coolman listed the various health and safety issues caused by this problem. Mr. Coolman noted that Mr. Golinski was able to have the engineer and the DPW inspect the situation and devise a solution. Mr. Golinski stated that Mr. Ward is the one who coordinated the activities for the inspection of the site. Mr. Ward explained that the problem is that there is not enough elevation to tie into one of the existing storm basins that then discharges into the lake. He briefly explained the scope of the work needed and said that the Engineer provided an estimate of $30,000 to $40,000 for the project, if it were to be done by an outside contractor. Mr. Ward advised that the DPW does have the capability of doing the work, it is just a matter of fitting it into their tight schedule. He said that, in discussing this with Mr. Golinski, they determined that it can probably be accomplished by year’s end. Mr. Ward added that, in the event it cannot be done by the DPW, it will be recommended as a capital expenditure for 2012.

President Kuser asked if anyone from the Council or the public wished to have anything
removed from the Consent Agenda.
Councilwoman Smith asked if $50 is the correct amount of the refund of a COAH fee in
R-11-126. It was noted that it is the correct amount.

Mayor Hussa stated that Mr. Ward has indicated that R-11-122 should be removed from
the Agenda.
President Kuser asked if the Mayor is saying that the resolution should be removed
completely from the Agenda, not just from the Consent Agenda. The Mayor replied that
is correct. Mr. Ward explained that an issue has come up regarding a sewer
assessment that needs to be resolved first.
