Construction – Renovation – Demolition
Recycling Requirement

New establishments:

a. Any application to the Township of Denville Planning Board for subdivision for the following types of location must include a recycling plan.
   Multifamily – 3 or more units
   Single family developments of 50 or more units
   Industrial development of 1,000 sq feet or more of land

b. Plan must include expected composition and amounts of solid and recyclables generated. See sample below

c. Locations must provide for convenient recycling opportunities for all owners, tenants and occupants. Recycle area shall be of sufficient size, location and other attributes (signage, lighting, fencing) as may be determined by Municipal Recycling Coordinator.

d. Prior to issuance of Certificate of Occupancy by the Township, the owner of the proposed establishment must supply a copy of a duly executed contract with a vendor for the purposes of collection and recycling of source segregated material where the municipality does not otherwise provide this service.
New Establishment Sample Recycling Plan

Date ______

Note ----- Below is customizable sample language addressing the Establishment’s recycling program, indoor and outdoor bin(s), and move in/out requirements

BE SURE TO ADD SITE SPECIFIC INFORMATION.

I am a ___ property owner ____ non residential establishment

1. NAME
   address

has an active recycling program. All employees/tenants/visitors are strongly encouraged to participate in the program.

New Jersey DEP, Morris County MUA and Township of Denville regulations are observed and followed:
NJ Recycling http://www.nj.gov/dep/dshw/recycling/
Morris County Recycling http://www.mcmua.com/recycling/index.htm
Township of Denville Recycling http://www.denvillenj.org/recycling.php

2. Documentation
Recycle program is active, current and effective. ____ (initial)
Written recycle program is in place and can be reviewed upon request. ____ (initial)
Must provide written recycle plan – Mandatory ________ (initial)

I have reviewed educational materials that explain what materials must be sorted from my garbage and recycled____(initial)

I understand regulations which apply to recycling. _____ (initial)
3. Recycling Containers
   Inside Building
   Recycling bins/trash containers are properly labeled and effectively placed. ____ (initial)

   Explain ____________________________

   __________________________________________

   Outside Building
   DUMPSTERS/consolidation containers are located at convenient locations and properly labeled. Area is neat and orderly. Only recyclable materials may be placed into the recycling containers. A list of recyclable materials is available and can also be found on each recycling (DUMPSTER/CART).

   Explain ____________________________

   __________________________________________

5. Composition and amounts of solid and recyclables generated.

   Place specific information (include anticipates volume/frequency for each item:

   a) Solid Waste – non recyclables to be generated Vendor

Construction, Renovation, and Demolition Debris Recovery Plan

a. “Covered project” shall mean a construction, renovation or demolition project for which a building permit, or demolition permit is required and for which a dumpster or roll off container shall be placed on premises for the purpose of solid waste materials.

b. A debris recovery plan (SEE EXAMPLE BELOW) shall be filed with the municipal recycling coordinator prior to commencement of the activity listed above. The plan shall identify the types of estimated quantities of construction, renovation and demolition (C R D) debris to be generated, how each material will be managed and the name or service provider to that material. Plan shall further detail how the applicant shall ensure that a minimum of 50% of the materials to be generated will be separated and recycled.

c. Debris recovery plan shall be reviewed by Municipal Recycling Coordinator (MRC) and if acceptable, plan shall be marked “approved” and returned to the entity submitting the plan. MRC can grant adjustments to the 50% diversion rate.

e. Upon completion of the covered project, but before the final inspection, the owner of the entity carrying out a covered project shall submit in person or by certified mail to the MRC the documentation required to demonstrate that the applicant has met the diversion requirement. Documentation must include: quantity of each material, receipts of service providers utilized in the project and any other information which is relevant to determining compliance to the diversion requirement.
Debris Recovery Sample Plan
