Certificate of Achievement for Excellence in Financial Reporting

Presented to

County of Prince George, Virginia

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Nancy L. Jelle
President

Jeffrey R. Ensor
Executive Director
February 9, 2006

The Honorable Members of the Board of Supervisors
County of Prince George, Virginia

Members of the Board:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of Prince George County (the “County”) for the fiscal year ended June 30, 2005. This report was prepared by the County’s Department of Finance. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County, as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the County’s financial affairs have been included.

The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County’s accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County’s internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Section 15.2-2511 of the Code of Virginia requires that local governments have their financial records audited annually as of the end of the fiscal year by an independent certified public accountant. The County has engaged the independent accounting firm of Robinson, Farmer, Cox Associates (RFCA) to perform the audit and prepare the accompanying financial statements.
The Reporting Entity and its Services

The County of Prince George’s Comprehensive Annual Financial Report includes all funds and account groups of the “primary government.” In Virginia, cities and counties are distinct units of government; therefore, the County is responsible for providing all services normally provided by a local government. These services include police protection, social services, recreation and cultural activities and community development. Additionally, the County operates a water and wastewater utility system. Fire protection and emergency medical services are largely provided by volunteers who receive financial and administrative support from the County.

For financial reporting purposes and in accordance with the Governmental Accounting Standards Board (GASB), Statement 14, “The Financial Reporting Entity,” the County has identified one discrete component unit. The GASB statement establishes the criteria used in making this determination and identifies each as a blended component unit or discretely presented component unit. Blended component units, although legally separate entities, are, in substance, part of the primary government’s operations, and therefore are included as part of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of this primary government. Therefore, the County School Board is reported in a discrete presentation. Based on GASB Statement 14 criteria, the School Board is a legally separate organization providing educational services to the public whose board is elected and is fiscally dependent on the local government.

The financial statements for the Riverside Regional Jail, the Appomattox Regional Library System, and Rowanty Vocational Technical School are not included in the County report. Boards separate from, and independent of, the Board of Supervisors administer these organizations.

Local Economy

Prince George County is located 25 miles southeast of Richmond, the capital city of Virginia, and 75 miles northeast of the Greater Hampton Roads area. The County’s 276 square mile area has a population of 36,700 people (2004 Weldon Cooper Center Provisional Population estimate). The greater proportion of the County’s land area remains rural, although areas of the County are experiencing rapid residential, commercial and industrial growth. Prince George is an independent political subdivision of the Commonwealth of Virginia, and has no subordinate political entities within its borders. A five-member Board of Supervisors governs the County. Other elected officials in the County government include the Clerk of Circuit Court, Commissioner of the Revenue, Commonwealth’s Attorney, Sheriff, and Treasurer. All elected officials are elected on a four-year cycle.

Major industries located in Prince George County include: warehousing and distribution centers, hotels and tourism, manufacturing, packaging, and logistics automation. Prince George’s strategic location on or near several east coast transportation arteries also contributes to the proliferation of distribution centers located in the County. Interstates 95 and 295 run through Prince George, as well as Route 460, a primary arterial from the Virginia Beach area.
Local Economy: (Continued)

Fort Lee Army Base is the County’s largest employer and has a huge impact on the local economy. Fort Lee contributes over $860 million a year to Prince George County and the Tri-Cities area economies, with a direct tax impact of $57 million. Currently, 7,800 people are assigned to the base, and that number is expected to nearly double between 2008 and 2011 with the recent actions endorsed by the Base Realignment and Closure Process (BRAC). According to the BRAC report, Fort Lee will gain 6,531 military assignments, 1,151 civilian positions and 56 contractors. These realignments will result in Fort Lee experiencing the largest military personnel gain of any installation in the Commonwealth of Virginia. Additionally, this expansion is expected to result in an additional 4,425 indirect non-governmental base support and service industry jobs in the surrounding region, bringing the net gain to approximately 12,000 jobs.

Based on available economic data, the local economy has remained strong. The local unemployment rate was 4.6% for June 2005, as compared to 4.7% for June 2004. The state and national unemployment rates for the same period were 3.8% and 5.0% respectively.

The County’s favorable employment conditions are supported by the continued growth of jobs over the last six years. According to the Virginia Employment Commission, the number of persons employed in Prince George County has increased from 16,171 in 1999 to 18,304 in 2004.

Major Initiatives in Fiscal Year 2005

Following the vision and strategic priorities of the Prince George County Board of Supervisors, and with the assistance and guidance of the County Administrator, County staff and departments have implemented and continued a number of specific programs and projects designed to enhance the levels of service provided to County residents while maintaining an effective and efficient government. A brief description of selected initiatives during Fiscal Year 2005 is as follows:

Initiation of the Radio Communications System Project
The County began a project to completely replace the current Emergency 911 system, including the purchase of new radio equipment, installation and enhancement of emergency communications towers and equipment, and construction of a new Emergency Communications and Emergency Operations Center. This $7.7 million project, financed through a bank-qualified general obligation note issued in January 2004, will replace the current radio communications system that cannot provide radio coverage in all parts of the County. The new Emergency Communications Center will provide adequate space for Emergency-911 operations, which are currently housed in the Bland Police Building.

Management Restructuring
In 2003, the County contracted with Springsted Inc. to provide a review of the current County operations in all County departments and make recommendations for improvements. The most significant recommendation of that study was a reorganization of the County’s management, which included three major changes: 1) County departments were grouped into functional divisions, 2) existing department directors were selected, through a competitive process, to function as division directors, reporting directly to the County Administrator, and 3) the creation of a Deputy County Administrator position to head the Community Development Division. In Fiscal Year 2005, the County fully implemented the management reorganization as recommended by Springsted with the hiring of a Deputy County Administrator and the appointment of five Division Directors.
Major Initiatives in Fiscal Year 2005: (Continued)

Biannual Real Estate Collections and Prepayment of Outstanding Debt
The Fiscal Year 2005 budget included calendar year 2005 implementation of biannual real estate tax collections due June 5 and December 5, 2005. Previously, all real estate taxes had been due December 5, and this change resulted in an extra one-half year’s real estate tax collection in Fiscal Year 2005. With these one-time revenues, the Board of Supervisors budgeted the pre-payment of just over $5.1 million of outstanding general obligation debt in an effort to improve the County’s outstanding debt ratios and provide debt capacity for future capital needs.

Capital Improvements Plan/ Long Term Financial Planning
The Prince George County Board of Supervisors continued to sharpen their focus on long term financial planning and future capital needs in the Fiscal Year 2005 budget process by establishing a capital projects fund and a debt service fund on the County’s records. The establishment of these funds places the payment of general obligation debt service in one place, and establishes a clear record of capital appropriations that can be traced to the County’s Capital Improvement Plan. The Capital Improvement Plan is generated by a CIP Committee comprised of members of the Board of Supervisors, School Board, County Planning Commission and citizen representatives. This Committee not only reviews requests for capital infrastructure projects, but they also review the County’s current and projected debt and financial ratios and make recommendations to the Board of Supervisors for changes in fiscal policies. Fiscal Year 2005 was the second year of the CIP Committee.

Other Information
Fiscal year 2005 was the third year in which the County was required to present financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement Number 34. GASB 34 dramatically changed the structure of financial statements, as well as required changes in the composition of the amounts reported. This limits the comparability of statements from prior fiscal years to the statements produced after implementation of GASB 34.

Compliance with GASB 34 also requires a written analysis of the County’s financial performance for the year to be included in the financial statements. This analysis, referred to as management’s discussion and analysis (MD&A), is included immediately following the auditor’s letter. Prince George County’s audited basic financial statements immediately follow the management’s discussion and analysis. The notes to financial statements are an integral part of these basic financial statements. In accordance with GASB 34 and the opinion of the Auditor of Public Accounts, financed school plant and equipment, as well as the related debt, are reported with the primary government instead of the component unit school board.

The supplementary information, supporting schedules, and statistical tables provided after the basic financial statements contain more detailed information in support of the basic financial statements and are unaudited.

For federal programs and related funding, the County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-profit Organizations. Information related to compliance with these regulations is located in the Compliance section of this report.
Awards
The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting Program to the County of Prince George, Virginia for its comprehensive annual financial report for the fiscal year ended June 30, 2004. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report conforms to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a certificate.

Acknowledgments
The preparation of this report on a timely basis could not have been accomplished without the dedicated services of the entire Department of Finance, Treasurer’s Office and the office of the Commissioner of the Revenue. We would like to express our appreciation to all the members of the staff who assisted and contributed to its preparation. We would also like to thank the Board of Supervisors for their continued interest and support in planning and conducting the financial operation of the County in a responsible, timely and progressive manner.

In conclusion, we would like to express our appreciation to the Board for their continued support and to the independent accounting firm of Robinson, Farmer, Cox Associates for their assistance in the preparation of this report.

Respectfully submitted,

Brenda G. Garton
County Administrator

Sheila S. Minor, CPA
Director of Finance
Independent Auditor’s Report

To The Honorable Members of the Board of Supervisors
County of Prince George
Prince George, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Prince George, Virginia, as of and for the year ended June 30, 2005, which collectively comprise the County’s basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Prince George, Virginia’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the Specifications for Audits of Counties, Cities, and Towns issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Prince George, Virginia, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September 15, 2005, on our consideration of the County of Prince George, Virginia’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.
The Management’s Discussion and Analysis and budgetary comparison information as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Prince George, Virginia, basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, supporting schedule and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the County of Prince George, Virginia. The individual nonmajor fund financial statements, supporting schedule and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Charlottesville, Virginia
September 15, 2005
The following discussion of the County of Prince George’s financial performance provides an overview of the County’s financial activities for the fiscal year ended June 30, 2005. Please review it in conjunction with the transmittal letter in the beginning of this report and the County’s financial statements, which begin after this analysis.

FINANCIAL HIGHLIGHTS

Government Wide Financial Statements (Full Accrual Basis)

- The County’s total net assets from Governmental Activities were $24,551,325 on June 30, 2005, compared to $15,976,193 total net assets on June 30, 2004. Total net assets represent the amount by which the County’s assets exceeded its liabilities. Net assets increased $8,575,132 during FY2005.

- The total net assets from Business-type activities (Utilities Fund) were $16,952,005 on June 30, 2005, compared to $15,401,645 total net assets on June 30, 2004. Net assets increased $1,550,360 during FY2005.

- The total net assets of the Component Unit School Board on June 30, 2005 were $11,676,199, compared to $11,449,191 on June 30, 2004. Net assets increased $227,008 during FY2005.

The significant increase in net assets from governmental activities is largely attributable to a change in the collection dates for real property taxes and the use of those funds to pre-pay existing long-term obligations. For tax year 2005, the Prince George County Board of Supervisors elected to begin biannual collections of real property taxes, with collection dates of June 5 and December 5 each year. Previously, real property had been collected annually on December 5. This change resulted in a one-time additional collection of one-half of the County’s real property tax in fiscal year 2005. The majority of these funds were utilized for the prepayment of outstanding general obligation debt.

The significant increase in net assets from business-type activities was the result of prepayment on two outstanding obligations and the reclassification of some outstanding debt as belonging to the General Fund rather than the Utilities Fund. Enterprise obligations in the amount of $2.6 million were restated as of July 1, 2004 (See Note 8 and 15).

Fund Financial Statements- Governmental Funds (Modified Accrual Basis)

- The General Fund had an unreserved undesignated fund balance of $9,890,093 at the conclusion of FY2005, compared to $7,947,889 at the end of FY2004.

- Designations of $110,593 represent fund balances in the Revenue Maximization Fund.

- The County Capital Projects fund had $8,592,971 in fund balances reserved for construction at fiscal year end, representing amounts reserved for completion of the radio communication project, Fire & EMS apparatus replacement, and reserves for undesignated projects. Of this balance, $1,486,567 were the remnants of the school construction fund, which was discontinued in FY2005. These funds were appropriated in FY2006 for the construction of the School Board Administration Building.
FINANCIAL HIGHLIGHTS: (CONTINUED)

Fund Financial Statements- Governmental Funds (Modified Accrual Basis): (Continued)

• The debt service fund had an ending balance of $36,204 as of June 30, 2005, representing interest earned in construction escrow accounts set aside for the payment of debt service.

• Other governmental funds include the Meals Tax/Economic Development fund, the E911/Emergency Dispatch Fund, and the Asset Forfeiture Fund. Fund balances in each of these funds are $925,055, $73,831, and $24,514, respectively.

Fund Financial Statements- Enterprise Funds (Full Accrual Basis)

• In the Utilities Fund, operating expenses exceeded operating revenues by $42,328 in FY2005, compared to a $72,329 surplus of revenues during FY2004.

• Operating revenues increased 7.5%, from $2.9 million in FY2004 to $3.1 million in FY2005. Operating expenses for the Utilities Fund increased 11.8% from $2.8 million in FY2004 to $3.2 million in FY2005.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Comprehensive Annual Financial Report contains a variety of schedules and tables designed to provide a comprehensive look at the use of the County’s financial resources throughout the 2005 fiscal year and at the status of those financial resources at June 30, 2005, the end of the fiscal year. The basic financial statements contained in this report are separated into three sections:

• Government-wide financial statements provide a broad overview of both the long and short-term financial status of the County. Government-wide financial statements, a new component of governmental financial reporting under GASB 34, provide financial information in a manner similar to private sector businesses. These statements include the value of capital assets (less accumulated depreciation) and the long-term liabilities of the County.

• Fund financial statements are similar in nature to financial statements issued by local governments prior to implementation of GASB 34. These are prepared on the modified accrual basis of accounting, and therefore do not include long-term liabilities, capital assets, or depreciation. Fund financial statements provide more detail on the operations of the County than the government-wide financial statements.

• Notes to the financial statements are an integral part of the previous two sections. These notes provide explanations of the amounts in the basic financial statements, and offer the reader information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements include two basic statements: the statement of net assets and the statement of activities. Both of these statements include all assets and liabilities for all County funds (except fiduciary funds) using the full accrual basis of accounting. The accrual basis of accounting is the method used by private-sector businesses.
The Statement of Net Assets

Net assets, when analyzed over time, may serve as a useful indicator of a county’s financial position. The table below is a comparative summary of Prince George County’s net assets as of June 30, 2005:

<table>
<thead>
<tr>
<th></th>
<th>Governmental Activities</th>
<th>Business-type Activities</th>
<th>Totals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current and other assets</td>
<td>$22,370,435</td>
<td>$20,954,333</td>
<td>$1,091,601</td>
</tr>
<tr>
<td>Capital assets</td>
<td>68,300,794</td>
<td>66,054,762</td>
<td>19,487,359</td>
</tr>
<tr>
<td>Total assets</td>
<td>$90,671,229</td>
<td>$87,009,095</td>
<td>$20,578,960</td>
</tr>
<tr>
<td>Long-term liabilities outstanding</td>
<td>$60,297,650</td>
<td>$66,312,894</td>
<td>$2,904,077</td>
</tr>
<tr>
<td>Current liabilities</td>
<td>5,822,254</td>
<td>4,720,008</td>
<td>722,878</td>
</tr>
<tr>
<td>Total liabilities</td>
<td>$66,119,904</td>
<td>$71,032,902</td>
<td>$3,626,955</td>
</tr>
<tr>
<td>Net assets:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Invested in capital assets, net of related debt</td>
<td>$6,218,165</td>
<td>$6,122,816</td>
<td>$16,239,992</td>
</tr>
<tr>
<td>Unrestricted</td>
<td>18,333,160</td>
<td>9,853,377</td>
<td>712,013</td>
</tr>
<tr>
<td>Total net assets</td>
<td>$24,551,325</td>
<td>$15,976,193</td>
<td>$16,952,005</td>
</tr>
</tbody>
</table>

Approximately 54% of the County’s primary government net assets are invested in capital assets net of related debt. The County uses these capital assets, such as land, buildings and equipment, to provide services to citizens; consequently these assets are not available for future spending.
The Statement of Activities

The statement of activities, which also uses the accrual basis of accounting, illustrates the cost of governmental activities net of related revenues. It also shows the general revenue sources that fund governmental operations. A summary of the statement of activities for July 1, 2004 through June 30, 2005 is below:

### Changes in Net Assets

FUND FINANCIAL STATEMENTS

The focus of the fund financial statements is to provide information on short-term revenues and expenditures and the balance of resources available for spending for governmental funds. Proprietary funds in this section are prepared with the same method of accounting as used in the Government-wide statements; however, exhibits in this section will provide more detail. The General Fund, a governmental fund, is the operating fund for most County activities. Governmental fund statements do not include capital assets or long term liabilities, in accordance with the modified accrual basis of accounting.

The unreserved general fund balance may serve as a useful measure of the County’s net resources available for emergency spending or cash flow. The unreserved General Fund balance at June 30, 2005, was $10,000,686. This amount represents 13.2% of General Fund and School Operating expenditures (including normal debt service, net of general fund transfer to schools). The Board of Supervisors has committed to maintaining an unreserved general fund balance of at least 10% of General Fund and School Operating expenditures (net of transfer), and has met that target for the fiscal year ending June 30, 2005.

General Fund Budgetary Highlights

Prince George County generally takes a conservative approach to financial management, staying well within budgetary limits for expenditures during the fiscal year. Fiscal year 2005 was no exception, with general fund expenditures $3.76 million below the adopted budget and $2.71 million below the budget as amended.

The County’s budget was amended during FY2005 for unexpected revenue received. The County’s School System received $1.2 million in Federal Impact Aid from prior fiscal years, and the Board of Supervisors reduced the local appropriation to the school system and transferred those funds to the Capital Projects Fund for future capital needs.

During FY2005, Prince George County pre-paid $4.8 million of outstanding principal on two general obligation bond issues. The County utilized one-time revenue from a change in the real property tax collection date for this purpose, thereby reducing future annual debt service payments. This prepayment is reflected in the County’s debt service fund as both principal retirement and a transfer to the utilities fund (an enterprise fund) of $1.5 million. The County believes that the development of the County’s water and wastewater infrastructure is a significant growth management tool, and the reduction of the debt held by the utilities fund will allow for expansion of this infrastructure to meet anticipated demand.

On the revenue side, actual collections in the general fund for FY2005 were $468,253 less than the final budget. Real property taxes came in $216,247 higher than the final budget, despite a revised budget estimate and budget amendment during FY2006. Public service corporation taxes were above budget as well, as the adopted budget did not take into account the additional collection from the change in real property collection dates. Charges for sanitation and waste removal were 48% below budget, as FY2005 was the first year of implementation of a new fee structure at the County’s convenience station. The anticipated revenues from this change were over estimated, and usage declined as a result of the higher fees. Emergency Medical Service transports were also below budget, as this revenue generating program commenced in FY2005 later than anticipated and the collection percentage has not leveled off.

Fiscal year 2005 saw the implementation of a new mobile phone utility tax ($3.00 per month per number), increases in electric and gas utility taxes (to $3.00 per month), as well as the new solid waste disposal fee schedule. These fees were adopted as part of the FY2005 budget in an effort to hold real and personal property tax rates at their current levels of $0.90 and $4.00 per $100 of assessed value, respectively.

The County began twice a year billing for real property taxes in calendar year 2005. This change has resulted in a smoother cash flow, as the largest source of revenue to the County is now collected on a semi-annual basis. This change also resulted in the one-time additional revenue stream, equivalent to one-half of the real estate tax collections, was utilized to pre-pay outstanding debt during FY2005. This will significantly decrease the amount of future debt service expenditures.
FUND FINANCIAL STATEMENTS: (CONTINUED)

County Capital Projects Funds

The County had several active capital projects in FY2005. The Radio Communications System Project, budgeted at $7.7 million, will completely replace the current emergency communications infrastructure. The project includes the construction of several communications towers, a new Emergency Communications Center/Emergency Operations Center, and the related radio communications equipment to make the system operational. This project is expected to be completed in the fall of 2006.

The County Administration building was completed during FY2005, at a total cost of just over $10 million. Smaller capital projects in FY2005 included the replacement of the fiber optic infrastructure on the County complex, renovations at the former Burrowsville Elementary school to make it a community center and library, and the ongoing project to replace or upgrade the County’s enterprise resource planning system (financial system).

Proprietary Fund

The County’s only proprietary fund is the Utilities Fund. Through this fund, the County provides water and wastewater services to approximately 3,600 customers. During FY2005, the utilities department continued their water main replacement program, repairing and replacing undersized or deteriorating facilities in various parts of the County. The Utilities fund collected $572,281 in connection charges during FY2005.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Governmental Accounting Standards Board (GASB) Statement 34 requires the primary government (the County) to report debt and debt service incurred “on behalf” of component units (the School Board). In this report, capital assets such as school buildings that have related debt are reported with the primary government on the Statement of Net Assets. The portion of these capital assets free of related debt are reported as jointly owned assets under the component unit School Board (see Note 6).

The following table summarizes the County’s capital assets, net of depreciation, as of June 30, 2005. The County’s total investment in capital assets, such as land, buildings and improvements, utility plant, equipment, and construction in progress totaled $87.8 million.

</tbody>
</table>
CAPITAL ASSETS AND DEBT ADMINISTRATION: (CONTINUED)

At the end of fiscal year 2005, the County had total outstanding debt of $65.3 million. The impact of the County’s debt prepayment decision is clearly shown when this figure is compared to the $73.7 million of outstanding debt at the end of FY2004. Of the $65.3 million of outstanding debt at June 30, 2005, $24.2 million is for general government purposes. The County also had $37.9 million in outstanding debt on behalf of the School Board. The Utilities Fund has outstanding debt of $3.2 million. The County did not issue debt during FY2005 for any purpose.

Prince George County had $9.9 million in outstanding bond anticipation notes as of June 30, 2005. The County had two projects listed on the state Literary Fund Loan waiting list at that time. South and Harrison Elementary Schools were ranked ninth and tenth in priority order on that list. The FY2006 state budget included sufficient funds to offer an interest rate subsidy program for projects on the Literary Fund Loan waiting list, and in November 2005, the County refinanced those bond anticipation notes with the Virginia Public School Authority. Under this program, the state provides a grant for a portion of the principal, thus reducing the annual debt service for local participants. The County’s outstanding principal on this obligation as of December 2005 is $7.8 million.

For more information regarding Prince George County’s long term obligations, see Note 8 in the Notes to Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET AND RATES

Prince George County’s unemployment rate in December 2005 was 3.4%, which was slightly higher than the state unemployment rate of 3.0%, but well below the national rate of 4.6% for the same period. Generally, the County’s unemployment rate has tracked fairly close to the state average.

Prince George County continues to develop a strong commercial and industrial base. In 2005, the Board of Supervisors approved a rezoning application for a new Norfolk Southern Intermodal transportation facility in Prince George County. This facility will greatly enhance the County’s standing as a prime location for distribution and warehousing ventures. In April 2005, Service Center Metals, an aluminum extrusion plant currently located in Prince George, announced a $28 million expansion that is expected to create 32 jobs. Goya Foods announced their plans to open a new distribution center in Prince George, a $5.1 million investment, in October 2005.

The FY2006 budget begins to address some of the needs of the quickly growing population of Prince George County, however, there are still large demands upon the government for services to citizens. Major initiatives in the FY2006 budget include the construction of a new School Board Administration Building, additional resources for the County’s Information Technology Department to modernize the County’s technological infrastructure, a full time Geographic Information System (GIS) Coordinator to enhance the County’s utilization of GIS data, the update of the County’s Comprehensive Plan and Zoning Ordinances, and a Cash Proffer Study to recalculate and update the County’s cash proffer program.

It is the continued mission of the County to provide the most cost-efficient services to the taxpayers of Prince George County, and to make Prince George “the best place to live, learn, work and raise a family”.

REQUESTS FOR INFORMATION

This financial report is designed to provide the Board of Supervisors, citizens, taxpayers, customers, and creditors of Prince George County, Virginia with a general overview of the County’s finances and to show the County’s accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Prince George County, P.O. Box 68, Prince George, Virginia 23875.

### ASSETS

#### Current Assets
- Cash and cash equivalents: $19,476,704
- Receivables (net of allowance for uncollectibles):
  - Taxes receivable: $1,438,165
  - Accounts receivable: $473,312
  - Internal balances: $445,797
  - Due from other governmental units: $536,457

#### Noncurrent Assets
- Capital assets (net of accumulated depreciation): $68,300,794
  - Land: $5,899,198
  - Buildings: $55,057,065
  - Machinery and equipment: $3,105,806
  - Utility plant in service: $19,217,125
  - Construction in progress: $4,238,725

#### Liabilities
- Accounts payable: $1,075,325
- Accrued liabilities: $991,322
- Customers’ deposits: $852,635
- Accrued interest payable: $852,635
- Unearned revenue: $852,635
- Long-term liabilities:
  - Due within one year: $2,902,972
  - Due in more than one year: $60,297,650

#### Net Assets
- Invested in capital assets, net of related debt: $6,218,165
- Unrestricted (deficit): $18,333,160

**Fund balances - beginning, as restated**

| | 8,083,978 | 10,216,380 | 542,988 | 1,041,887 | 19,885,233 |

**Fund balances - ending**

| | 10,000,686 | 8,592,971 | 36,204 | 1,023,399 | 19,653,260 |

The notes to the financial statements are an integral part of this statement.
Amounts reported for governmental activities in the statement of activities are different because:

- **Net change in fund balances - total governmental funds**: $(231,973)$

  Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

- **Transfer of joint tenancy assets from Primary Government to the Component Unit**: $(350,271)$

- **Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds**: $477,383$

- **The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items**: $6,523,336$

- **Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds**: $(439,646)$

- **Change in net assets of governmental activities**: $8,575,132$

The notes to the financial statements are an integral part of this statement.

The accompanying notes to financial statements are an integral part of this statement.
Note 1—Summary of Significant Accounting Policies:

The County of Prince George, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection; sanitation services; recreational activities, cultural events, education, and social services.

The financial statements of the County of Prince George, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government’s accounting policies are described below.

Financial Statement Presentation

In June 1999, GASB issued Statement No. 34, Basic Financial Statements - and Management’s Discussion and Analysis - for State and Local Governments. This statement, known as the “Reporting Model” statement, affects the way the County prepares and presents financial information.

GASB Statement No. 34 establishes requirements and a reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions.

Management’s Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government’s financial activities in the form of “management’s discussion and analysis” (MD&A).

Government-wide and Fund Financial Statements

Government-wide financial statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government’s activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.
Note 1—Summary of Significant Accounting Policies: (Continued)

Statement of Net Assets - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of “using up” capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Activities - The new government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government’s accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many government’s revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government’s original budget to the current comparison of final budget and actual results.
A. **Financial Reporting Entity**

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Prince George (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discreetly presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. **Individual Component Unit Disclosures**

**Blended Component Unit.** The County has no blended component units at June 30, 2005.

**Discretely Presented Component Units.** The School Board members are elected by the citizens of Prince George County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2005.

C. **Other Related Organizations**

**Included in the County's Comprehensive Annual Financial Report**

None
Note 1—Summary of Significant Accounting Policies: (Continued)

C. Other Related Organizations: (Continued)

Excluded in the County’s Comprehensive Annual Financial Report

Joint Ventures

South Central Wastewater Authority

The South Central Wastewater Authority is considered a joint venture and therefore its operations are not included in the County’s financial statements. The Counties of Chesterfield, Dinwiddie and Prince George and the Cities of Petersburg and Colonial Heights each appoint one member to the five member board. Each participating entity is required to purchase wastewater treatment services from the Authority at prescribed rates and capacity levels. The County retains an on-going financial responsibility for this joint venture. The County’s expenditures for wastewater treatment services for the year ended June 30, 2005 were $416,492.

Complete financial statements for the Authority can be obtained from the Authority’s office at 900 Magazine Road, Petersburg, Virginia 23803.

Riverside Regional Jail Authority

The Riverside Regional Jail Authority is considered a joint venture and therefore its operations are not included in the County’s financial statements. The Counties of Charles City, Chesterfield, Prince George and Surry and the Cities of Petersburg, Colonial Heights and Hopewell each appoint one member to the seven member board. Each participating entity is required to commit prisoners and pay the established per diem charge in accordance with its service agreement with the Authority. The County’s expenditures for confinement services for the year ended June 30, 2005 were $1,009,269. The County does not retain a financial interest in the Jail Authority.

Complete financial statements for the Authority can be obtained from the Authority’s office at 1000 River Road, Hopewell, Virginia 23860.

Appomattox River Water Authority

The Appomattox River Water Authority is considered a joint venture and therefore its operations are not included in the County’s financial statements. The Counties of Chesterfield, Dinwiddie and Prince George and the Cities of Petersburg and Colonial Heights each appoint one member to the five member board. Each participating entity is required to purchase water in accordance with its service agreement with the Authority. The County’s expenses for water purchased for the year ended June 30, 2005 were $244,853. The County does not retain a financial interest in the Water Authority.

Excluded in the County’s Comprehensive Annual Financial Report: (Continued)

Appomattox River Water Authority: (Continued)

Complete financial statements for the Authority can be obtained from the Authority’s office at 21300 Chesdin Road, Petersburg, Virginia 23860.

Appomattox Regional Library:

The County is a participant with the County of Dinwiddie and the City of Hopewell in a joint venture to operate the Appomattox Regional Library (the Library). The Library is governed by an 11-member board composed of five appointees from Hopewell three each from Dinwiddie and Prince George. Each locality is obligated by contract to fund a percentage of the Library’s approved budget. In accordance with the joint venture agreement, the County remitted $261,581 to the Library for fiscal 2005. The County has an ongoing financial responsibility to fund the Library, but does not retain a financial interest in the Library. Financial statements for the Library can be obtained at its administrative offices at 245 East Cawson Street, Hopewell, Virginia 23860.

Jointly Governed Organizations

The County participates with the eight other localities in District 19 Community Services Board. The County also participates with five other localities in Virginia’s Gateway Region, a regional economic development organization. The County provided funding of $77,557 and $30,479 respectively, during fiscal 2005 to these entities. The County also participates with six other localities in the Crater Youth Care Commission.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.
Notes to Financial Statements
As of June 30, 2005 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

The government-wide statement of activities reflect both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County’s fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.
Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting of primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time other specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the following governmental funds.

**General Fund** - The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund’s revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.
Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

1. **Governmental Funds: (Continued)**

   **Capital Projects Fund** – The Capital Projects Fund account for financial resources to be used for the acquisition or construction of major capital facilities. The Capital Projects Fund is considered a major governmental fund.

   **Debt Service Fund** – The Debt Service Fund Accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds. The debt service fund is considered a major governmental fund.

   **Special Revenue Fund**: The Special Revenue Fund accounts for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The County Special Revenue Fund is considered a non-major governmental fund.

   **Proprietary Funds** – account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary funds consist of Enterprise Funds.

   **Enterprise Funds** - Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The County’s Enterprise Funds consist of the Water and Sewer Fund.

   The County reports the following non-major governmental funds:

   **Fiduciary Funds** – (Trust and Agency Funds) – account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting to recognize receivables and payables. Fiduciary funds are not included in the government-wide financial statements. Agency funds include the Special Welfare Fund, Fringe Benefit Fund and the Performance Bond Fund.

E. **Cash and Cash Equivalents**

   Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.
COUNTY OF PRINCE GEORGE, VIRGINIA

Notes to Financial Statements
As of June 30, 2005 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

E. Cash and Cash Equivalents: (Continued)

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component unit are reported at fair value.

F. Investments

Investments are stated at fair value which approximates market; no investments are value at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately $254,441 at June 30, 2005 is comprised of property taxes in the amount of $151,831 and utility accounts of $102,610.

Real and Personal Property Tax Data:

The County bills and collects its own property taxes.
Notes to Financial Statements
As of June 30, 2005 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than $5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives.

<table>

<td>10</td>
</tr>
</tbody>
</table>

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as “terminal leave” prior to retirement.
Note 1—Summary of Significant Accounting Policies: (Continued)

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County’s policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligation are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.
Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.

2. Public hearings are conducted to obtain citizen comments.

3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised in excess of $1,000 only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system’s categories.

5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

6. Appropriations lapse on June 30 for all County units with the exception of Capital Projects.

Expenditures and Appropriations

Expenditures did not exceed appropriations in any fund at June 30, 2005.

Note 3—Deposits and Investments:

Deposits

All cash of the County is maintained in accounts collateralized in accordance with Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance. Under the Act, banks holding public deposits in excess of the amounts insured by FDIC must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. Savings and loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. Deposits covered by the Act are considered insured since the Treasury Board is authorized to make additional assessments.
Note 3—Deposits and Investments: (Continued)

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

Custodial Credit Risk (Investments):

The County’s investments at June 30, 2005 were held by the County or in the County’s name by the County’s custodial banks; except $19,855,354 of the Virginia Local Government Investment Pool where the underlying securities were uninsured and held by the investment’s counterparty.

Credit Risk of Debt Securities:

The County’s rated debt investments as of June 30, 2005 were rated by Standard & Poor’s and/or an equivalent national rating organization and the ratings are presented below using Standard & Poor’s rating scale.

<table>
<thead>
<tr>
<th>Locality’s Rated Debt Investments’ Values</th>
</tr>

COUNTY OF PRINCE GEORGE, VIRGINIA

Notes to Financial Statements
As of June 30, 2005 (Continued)
Note 9—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling $1,641,850 is comprised of the following:

Prepaid Property Taxes – Property taxes due subsequent to June 30, 2005 but paid in advance by the taxpayers totaled $852,635 at June 30, 2005.

Note 10—Contingent Liabilities:

Federal programs in which the County and all discretely presented component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

At June 30, 2005, the County had the following construction contracts outstanding:

<table>

<td>Total</td>
<td></td>
<td>$2,963,474</td>
</tr>
</tbody>
</table>
Notes to Financial Statements
As of June 30, 2005 (Continued)

Note 11—Litigation:

At June 30, 2005, there were no matters of litigation involving the County or which would materially affect the County’s financial position should any court decisions on pending matters not be favorable to the County.

Note 12—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the Virginia Municipal Group Self Insurance Association for workers’ compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.
Note 13—Defined Benefit Pension Plan:

Primary Government

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 with 5 years of service for participating law enforcement officers and firefighters) or at age 50 with 30 years of service for participating employees (age 50 with 25 years of service for participating law enforcement officers and firefighters) payable monthly for life in an amount equal to 1.7 percent of their average final compensation (AFC) for each year of credited service. Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for an annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating law enforcement officers and firefighters may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The VRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from the VRS website at http://www.varetire.org/PDF/2005AnnuRept.pdf or obtained by writing the VRS at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5% of their reported compensation to the VRS. This 5% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The County and School Board non-professional employees’ contribution rates for the fiscal year ended 2005 were 11.25% and 6.5% of annual covered payroll, respectively.
COUNTY OF PRINCE GEORGE, VIRGINIA

Notes to Financial Statements
As of June 30, 2005  (Continued)

Note 13—Defined Benefit Pension Plan: (Continued)

Primary Government: (Continued)

B. Funding Policy: (Continued)

The School Board’s professional employees contributed $1,436,549, $824,623, and $795,163 to the teacher cost-sharing pool for the fiscal years ended June 30, 2005, 2004, and 2003 respectively. The County’s current rate is 6.03% of annual covered payroll.

C. Annual Pension Cost

For fiscal 2005, the County’s annual pension cost of $879,819 was equal to the County’s required and actuarial contributions. The required contributions were determined as part of the June 30, 2004 actuarial valuation using the entry age normal actuarial cost method.

For fiscal 2005, the County School Board’s annual pension cost for the Board’s non-professional employees was $228,484 which was equal to the Board’s required and actuarial contributions. The required contributions were determined as a part of the June 30, 2004 actuarial valuation using the entry age normal actuarial cost method.

Note 14—Length of Service Award Pension Program:

A. Plan Description and Provisions

On January 1, 2001 the Prince George County Board of Supervisors adopted the Length of Service Awards Program for the Prince George County Volunteer E.S.T. to recognize the service provided by the volunteers. The plan is a single employer, defined benefit pension plan which was open to any volunteer emergency service technician who has earned a year of credited service. Participants vest after five years of service and earn a fixed dollar benefit based on years of service. No separate financial report is issued for the plan.

As of January 1, 2005 the program membership consisted of the following:

<table>
<thead>
<tr>
<th>Eligible Members</th>
<th>107</th>
</tr>
</thead>
<tbody>
<tr>
<td>Retirees and beneficiaries</td>
<td>32</td>
</tr>
</tbody>
</table>
B. Funding Policy

This plan is available to vested volunteer members with no covered payroll. Benefits amortize on a level dollar basis, and are recognized when due and payable in accordance with the terms of the plan. Members vest over a five year period. Benefits accrue at the rate of $10 per month for each two years of active service. Since the County fully funds the plan, refunds are not paid. The plan does not provide for post-retirement increases. The contribution rate is determined using an entry age Normal-Frozen Initial Liability Cost Method. The actuarial value of the plan assets is equal to the market value of the assets. Present and future assets in the plan are assumed to earn an investment rate of return of 5.5% compounded annually. There is no inflation factor or salary increase factor used since there is no covered payroll.

The contributions to the plan for the fiscal year ended June 30, 2005 totaled $180,000. The program’s funding provides for periodic County contributions at actuarially determined rates that are sufficient to accumulate adequate assets to pay benefits when due. At June 30, 2005 the plan had net assets available for benefits totaling $790,989. Unfunded past service costs total $313,808 and will be fully amortized in 5 years. The plan additions fund the cost of administering the plan.

</tbody>
</table>

Note 15—Landfill Postclosure Care Costs:

The County closed it landfill prior to the date mandated by state and federal laws and regulations and is liable for post-closure monitoring for a period of at least ten years. Post-closure monitoring costs are believed to be minimal and will be paid for with general fund revenues.
COUNTY OF PRINCE GEORGE, VIRGINIA

Notes to Financial Statements
As of June 30, 2005 (Continued)

Note 16—Changes in Beginning Net Assets:

Net assets were restated as of July 1, 2004 due to the reclassification of long-term obligations and the recording of compensated absences as follows:

</tbody>
</table>

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

- Net change in fund balances - total governmental funds - per above | $ 133,595 |

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. (194,807)

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets. (42,051)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. (20,000)

Transfer of joint tenancy assets from Primary Government to the Component Unit. 350,271

Change in net assets of governmental activities | $ 227,008

To the Honorable Members of the Board of Supervisors  
County of Prince George  
Prince George, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Prince George, Virginia, as of and for the year ended June 30, 2005, which collectively comprise the County of Prince George, Virginia’s basic financial statements and have issued our report thereon dated September 15, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, Specifications for Audits of Counties, Cities, and Towns issued by the Auditor of Public Accounts of the Commonwealth of Virginia, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting
In planning and performing our audit, we considered the County of Prince George, Virginia’s internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters
As part of obtaining reasonable assurance about whether the County of Prince George, Virginia’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.
However, we noted certain matters that we reported to management of the County of Prince George, Virginia, in a separate letter dated September 15, 2005.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Charlottesville, Virginia
September 15, 2005
To The Honorable Members of the Board of Supervisors
County of Prince George
Prince George, Virginia

Compliance

We have audited the compliance of the County of Prince George, Virginia with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the fiscal year ended June 30, 2005. The County of Prince George, Virginia’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County of Prince George, Virginia’s management. Our responsibility is to express an opinion on the County of Prince George, Virginia’s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Prince George, Virginia’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Prince George, Virginia’s compliance with those requirements.

In our opinion, the County of Prince George, Virginia, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the fiscal year ended June 30, 2005.
Internal Control Over Compliance

The management of the County of Prince George, Virginia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County of Prince George, Virginia’s internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the Board of Supervisors, management and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

COUNTY OF PRINCE GEORGE, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2005

Note 1 - General
The accompanying schedule of expenditures of federal awards presents the activity of all federally assisted programs of the County of Prince George, Virginia. The County's reporting entity is defined in note 1 to the County's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the schedule.

Note 2 - Basis of Accounting
The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, which is described in note 1 to the County's basic financial statements.

Note 3 - Relationship to Financial Statements
Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:
- General Fund $1,295,327
- Total primary government $1,295,327

Component Unit Public Schools:
- School Operating Fund $5,732,641
- School Special Revenue Fund $1,128,663
- Total component unit public schools $6,861,304
- Total federal expenditures per basic financial statements $8,156,631

Non-cash expenditures - value of donated commodities $103,146

Total federal expenditures per the Schedule of Expenditures of Federal Awards $8,259,777
