Six-Month Work Plan

July – December 2012

Prepared by:
James B. Owens
Director
Executive Summary

The Office of Fire and EMS continues to serve as the foundation for solutions to various challenges faced by the volunteer Fire and EMS Companies operating within Prince George County. The Office of Fire and EMS continues to serve as the leadership and management center for full time and part-time EMS providers that staff one ALS transport unit 24/7 as well as two Administrative personnel. They work hand in hand with over 200 volunteers to ensure the needs of the citizens are met. The Director continues to balance strategic priorities along with the day-to-day items with no additional employee(s) to delegate the work load. Consideration must be given for an additional executive level position to assist the Director to effectively manage the workload. The Director continues working with a third-party consultant, Chief Paul W. Mauger (ret.), to help identify areas of improvement and solutions to ensure the progression of service delivery.

This plan identifies the major goals and objectives to enhance the current Fire and EMS service delivery system in Prince George County for the period of July 1, 2012 through December 31, 2012. The initiatives, identified by County Administrator Mr. Percy Ashcraft to help strengthen the volunteer system, serve as the fundamentals for these goals and objectives. Also included are the goals identified by the EMS Strategic Advisory Group. Furthermore, priority items that the Chief’s Management Committee and the Local Emergency Planning Committee have identified make up the additional goals to target within the next six months.

Implementation of this plan will enhance the current system and help ensure the citizens’ needs are met.
