**Q25. The City of Wentzville is interested in learning if Wentzville residents would support the establishment of a Sewer Lateral Insurance Program. Each resident is responsible for their own private sewer lateral. The portion of the private sewer lateral covered by the insurance program would be the pipe which carries household waste to the City's sewer main which lies between the structure foundation wall, or exterior wall, to the main in the street or sewer easement. The insurance program would be funded through an annual fee paid by each resident that connects to the City's sewer main. If the results from this survey indicate there is support for this program, the City will develop the insurance program, establish the annual fee to operate the program and place it on a future ballot for voter consideration. Knowing this, how supportive would you be of the City of Wentzville placing on a future ballot for voter consideration a Sewer Lateral Insurance Program, including establishing an annual fee to operate the program? (without "no response")**
