Multigenerational Facility Update
Following the approval of a development agreement during a June Board of Aldermen meeting, the Wentzville Bend and Multigenerational Recreation Facility are moving forward. The Parks Master Plan, Recreation Center Feasibility Study and a series of public meetings all indicated a strong community desire for this type of facility. This development will encompass approximately 60 acres of property located south and east of Wentzville Parkway, and north of William Dierberg Drive.
As currently envisioned, the project consists of two major elements: a 140,000-square-foot retail shopping center, plus an 80,000-square-foot Multigenerational Recreation Facility. It is anticipated that on-site grading for this project will begin in late fall of this year. The retail shopping center is expected to be ready for occupancy in 2021, with the Multigenerational Recreation Facility scheduled to open by late 2022.
